

# Consultation and Financial support on reusables for restaurants in Friedrichshain-Kreuzberg

## Advice on reusables:

We know there are many unanswered questions about reusables. Therefore, we'll help to advise you on the following topics:

- Legal obligations for offering reusables
- Hygiene guidelines
- Handling of reusable systems & customer-owned containers
- Building awareness for your customers
- Visualisation of the offer
- Employee knowledge & training

## Financial support:

Receive a €500 bonus if you implement a reusable campaign that aims to promote the actual use of reusables. This could, for example, be a discount campaign. Of course, we'll help support you by providing communication material.
